Implementation of a Mobile Attendance Application 'Attendance Register' for marking of attendance by Members of Parliament

The Hon'ble Members used to sign in physical register to mark their attendance when attending Parliament sessions. It is informed that a Mobile Attendance Application 'Attendance Register' for the Members of Parliament has been developed and was successfully used by Members during the foregoing 4th Session of the 17th Lok Sabha. This has facilitated a convenient way of marking of attendance within the Parliament House Complex using smart phones for the Lok Sabha sessions. It may be noted that the 'Attendance Register' App will be active only within the core area of Parliament House Complex and not in the peripheral areas. Further that the physical register presently being used will also be available as a choice for Members.

As the Mobile 'Attendance Register' Application has been got updated since the last session, Hon'ble Members are requested to uninstall the already downloaded Mobile Application from their smart phones and download the newly developed Mobile 'Attendance Register' App by following either of the under mentioned two procedures:

(i) Using the following link:
<https://parliamentofindia.nic.in/iosfile/android.htm>

or

(ii) Downloading the App 'Lok Sabha AR' from the Google Play Store/Apple Store.

The Login User ID for the Application would be the same as that used for accessing the Members' Portal. Members may use the default password that was provided to them during the last session. In case the Members have changed their password they may login with the changed password. However, for convenience of Members, the default password shall be once again sent to the Members through email and SMS, which may be changed by them after initial logging in.

While marking attendance through the application, the Members may press the 'Mark Presence/Exit' tab, followed by clicking and submitting their photo through pressing the 'Click' and 'Submit' tab when prompted by the App. The App shows the photograph along-with the time of marking at the bottom of the screen.
